ABOUT SHOC

The **Sherie Hildreth Ovarian Cancer (SHOC) Foundation** is a 100% volunteer operated 501(c)(3) nonprofit organization. Since its founding in 2005 by Sherie Hildreth, the SHOC Foundation has gifted \$1,000,000 to support Ovarian and Gynecologic Cancer research at the Oregon Health & Science University's (OHSU) Knight Cancer Institute.

Sherie Hildreth was diagnosed with Ovarian Cancer in 2004. She established the SHOC Foundation to raise funds for Ovarian Cancer Research, increase public awareness about the disease, and connect survivors with the resources to assist them on their journey. Sherie passed away from Ovarian Cancer in December of 2009. Her family and friends continue efforts in leading the Foundation and keeping the dream alive.

Tanja Pejovic, M.D, Ph.D. at OHSU's Knight Cancer Institute contributes to the development of strategies for early diagnosis, more effective therapy, and most importantly, prevention of Ovarian Cancer in women at risk.

OVARIAN CANCER FACTS

1 in 72 women in the U.S. have Ovarian Cancer
22,000+ new cases are diagnosed each year

5th leading cause of cancer deaths in women in the U.S.
14,000+ women lose their lives each year

#1 cause of Ovarian Cancer death is late detection
77% are diagnosed in an advanced stage

A PAP smear is NOT a test for Ovarian Cancer
PAP smears detect Cervical Cancer

OVARIAN CANCER SYMPTOMS

- Abdominal pressure, bloating, swelling or discomfort
- Nausea, loss of appetite
- Unusual fatigue
- Abnormal vaginal bleeding
- Unexplained weight gain or loss
- Urinary frequency, constipation or diarrhea

See your gynecologist if these symptoms are unusual for you and occur almost daily for more than a few weeks. Experts suggest a combination of a pelvic/rectal exam, CA 125 blood test and a transvaginal ultrasound.
